73-11.7.6 The Board of Aldermen shall consider, at a minimum, the following in its determination of whether or not to grant a Special Land Use Permit:

A. Compatibility

1. Whether the subject property is adequate in shape and size to accommodate the special use;
2. Whether adequate public facilities are available to serve the proposed use, including, but not limited to: water; sanitary sewer; stormwater drainage facilities; public safety and emergency facilities; roadway capacity; vehicular ingress and egress; or, that the applicant will provide adequately for such services and for placement in an appropriate location.
3. Whether specific use standards for the special use, if any, as provided in Section 73-7 Use Types and Supplemental Regulations, can be achieved;
4. Whether the special use will result in the destruction, loss, or damage of any feature determined by the review authority to be of natural, cultural, scenic or historic importance.

B. Consistency

1. Whether the special use is consistent with the intent, goals, strategies, policies, guiding principles and programs of the Comprehensive Plan and other adopted plans;
2. Whether the special use is detrimental to the public interest, health, safety, welfare, function, and appearance of the adjacent uses or general vicinity by reason of any one or more of the following: the number, area, location, height, orientation, intensity (such as traffic, noise, odor, hours of operation), or relation to the neighborhood or adjacent uses.
