Section 73-11.8.7:

A. General Consistency

1. The variance shall be consistent with the intent of this Zoning Ordinance and the Comprehensive Plan and shall not be injurious to the neighborhood or otherwise detrimental to the public health, safety, or welfare.

B. Special Conditions

- 1. Special conditions and/or circumstances exist which are peculiar to the land, buildings or structures involved and which are not applicable to other lands, buildings or structures in the same zoning district.
- 2. The special conditions and/or circumstances do not result from the actions of the applicant.
- 3. The special conditions and/or circumstances are not purely financial in nature so as to allow the applicant to use the land, buildings or structures involved more profitably or to save money.

C. <u>Literal Interpretation</u>

1. Literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of the Ordinance and would result in unnecessary and undue hardship on the applicant.

D. Minimum Variance

1. The variance, if granted, is the minimum variance necessary to make possible the reasonable use of land, buildings or structures.

E. Special Privilege Not Granted

1. The variance would not confer on the applicant any special privilege that is denied by this Ordinance to other lands, buildings or structures in the same zoning district.
